List of the Web Pages and Their Intent/Purpose

- Home Page – Serves as the main landing page, providing an introduction and a brief overview of the site. It includes a welcome message and highlights key sections.
- Professional Page – Showcases professional achievements, skills, resume, certifications, and work experience relevant to career goals.
- Personality Page – Provides insights into personal characteristics, including results from personality tests and how they relate to career aspirations.
- Personal Development Page – Highlights personal growth, learning experiences, and self-improvement efforts, including reflections on challenges and achievements.
- Storyboard Page – Outlines the website's structure, design choices, and intended user experience, explaining how the content is organized.
- References Page – Lists citations and references for sources used throughout the portfolio, ensuring proper acknowledgment of research materials.

Theme of Website

The website follows a modern, clean, and professional theme designed to create a visually appealing and user-friendly experience. It features a dark-themed background with white text and red highlights, ensuring high contrast and readability. The design maintains a minimalistic and structured layout, allowing visitors to navigate seamlessly through different sections. Graphics are used strategically to enhance the site's professional look without overwhelming the content. The target audience includes employers, recruiters, and industry professionals who may be interested in learning about skills, career development, and personal growth. The overall aesthetic balances professionalism with a touch of creativity to leave a lasting impression on visitors.
